TRAINING EXPERIENCE

Cloud Engineer Talent Academy at Amazon Web Services

February – March 2024

- AWS Academy Cloud Foundation Graduate, completed courses on fundamental cloud computing knowledge using AWS services.
- AWS Academy Cloud Architecture Graduate, completed courses on advanced cloud solution architectures, infrastructure, and performance optimization.

WORK EXPERIENCE

Indonesia Eximbank / Lembaga Pembiayaan Ekspor Indonesia

Data Analyst Intern

South Jakarta, DKI Jakarta

March 2025 – February 2026

- Authored comprehensive market research reports (Kajian) on specific export commodities, analyzing Indonesian export trends, market fluctuations, and key macroeconomic drivers to provide strategic business insights.
- Automated the leads generation workflow to map, identify, and distribute 1,000+ prospective debtor companies, significantly optimizing the market targeting process for relevant business units.

- Engineered interactive Tableau dashboards to automate data visualization and chart generation for the aforementioned economic reports, drastically accelerating the reporting process and eliminating manual tasks.
- Executed systematic web scraping to extract macroeconomic data from the Statistics Indonesia (BPS) portal, integrating the datasets into dynamic Excel Pivot Tables to streamline data analysis.
- Conducted rigorous data cleaning and validation across the entire large-scale company database, ensuring high data accuracy and integrity prior to management's strategic decision-making.
- Designed an interactive prototype for an internal platform using Figma, focusing on delivering an intuitive user interface (UI) and seamless user experience (UX) for internal stakeholders.

Nusatalent

UI UX Designer Intern

West Jakarta, DKI Jakarta

August 2023

- Designed and developed an interactive website prototype for the platform's "Events" section, focusing on an intuitive user interface (UI) and seamless user experience (UX) for event discovery.
- Created end-to-end design deliverables, including user flows, wireframes, and high-fidelity mockups using Figma to visualize the user journey.
- Executed a rapid design sprint within a one-month timeline, translating business requirements into a functional and visually appealing digital product ready for development review.
